

Brain Model Error Tracking Report

Total Episodes: 1000

Final Reward: 9.00

Peak Reward: 79.00

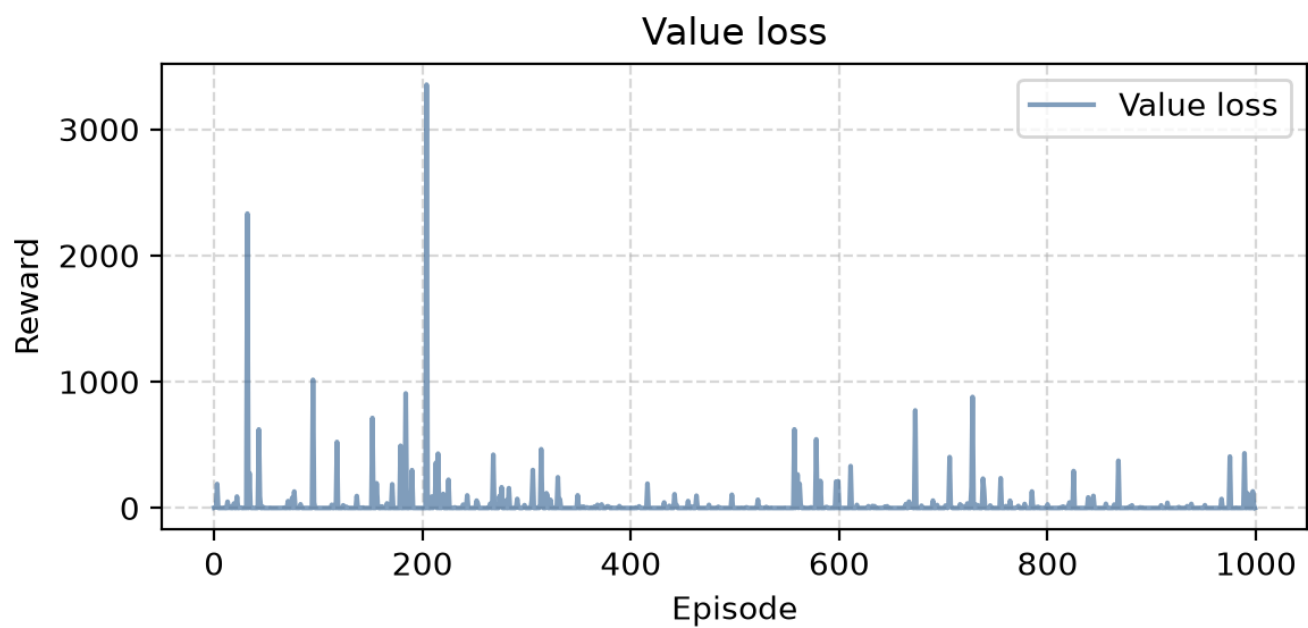

1. Learning Performance

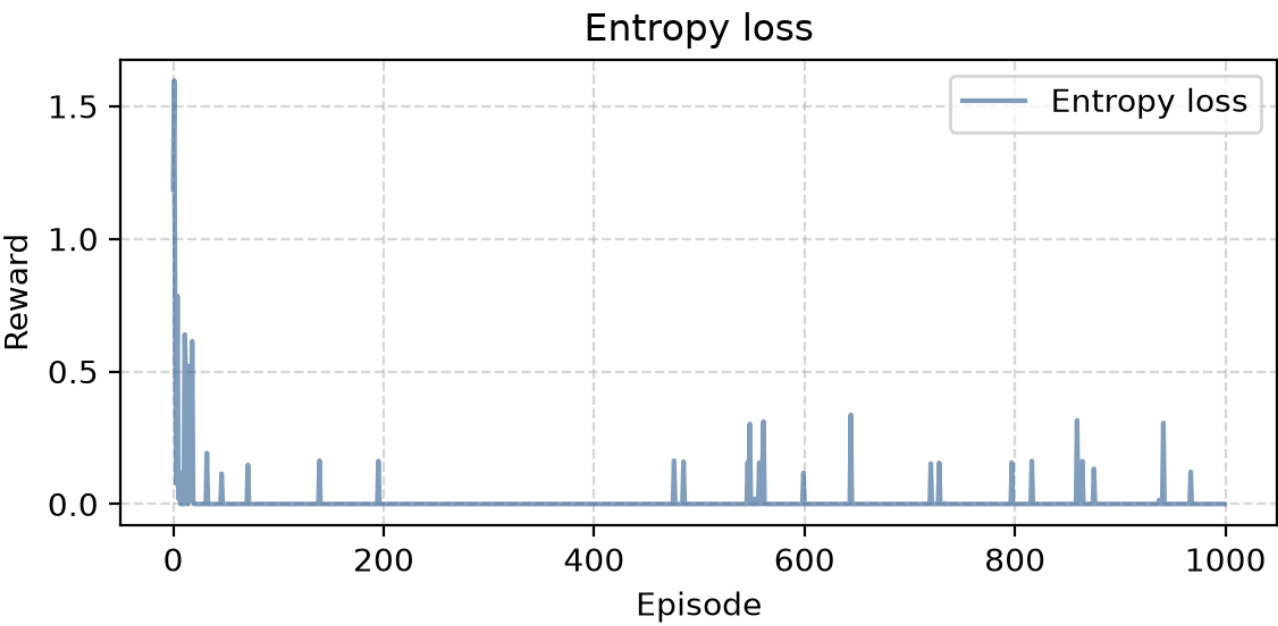

2. Actor loss

3. Value loss

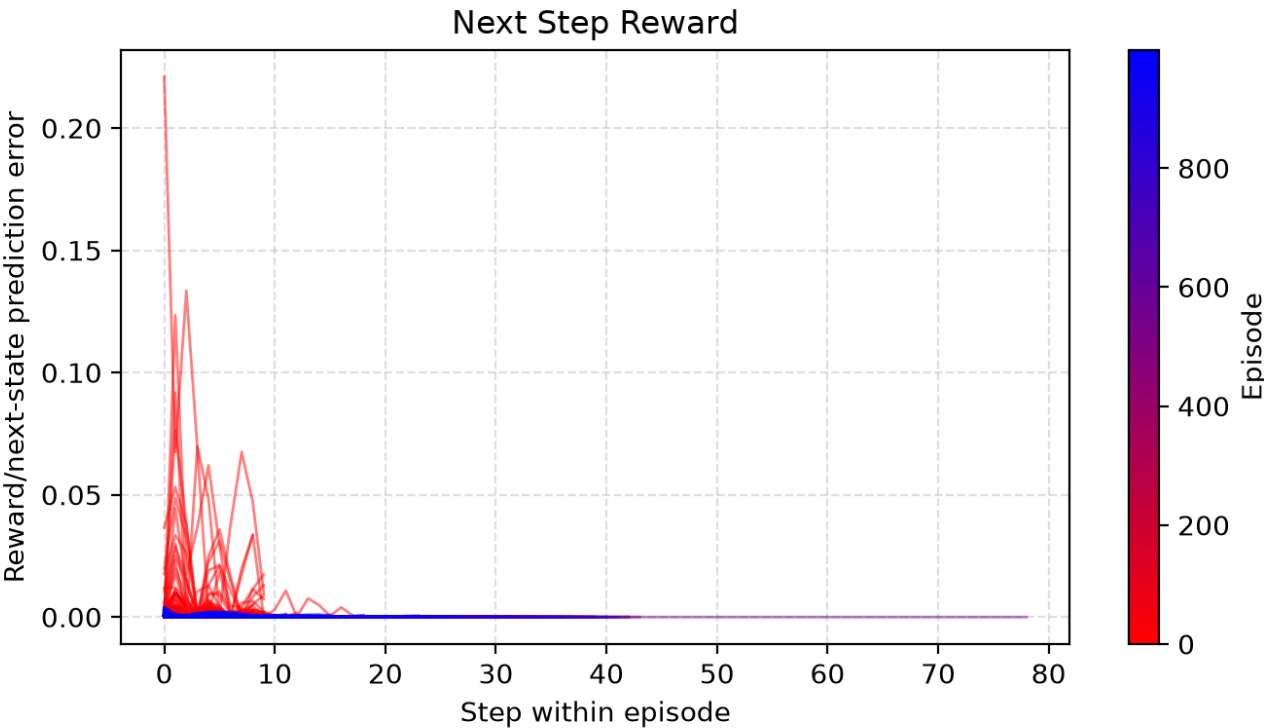

4. Entropy loss

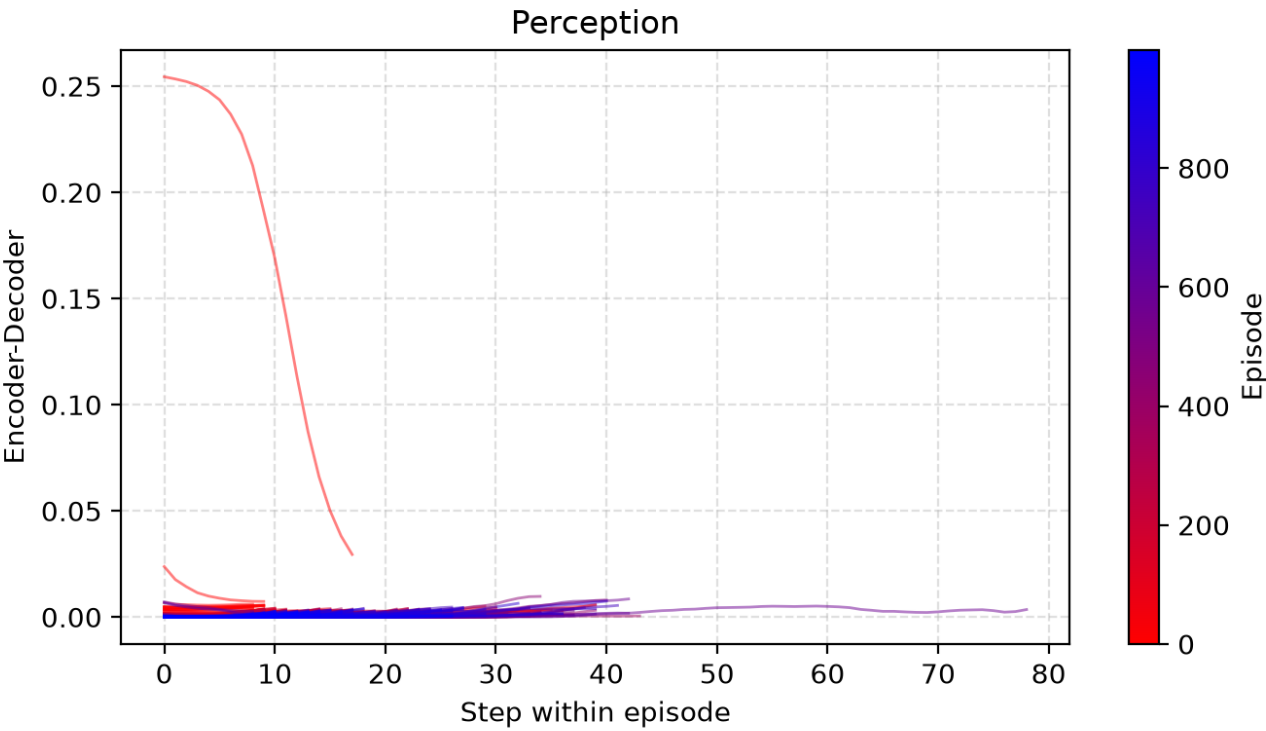

5. Next Step Reward

Each line is one episode's error over its steps. Color moves from red (earliest episodes) to blue (latest episodes) to reveal whether error is shrinking across training.

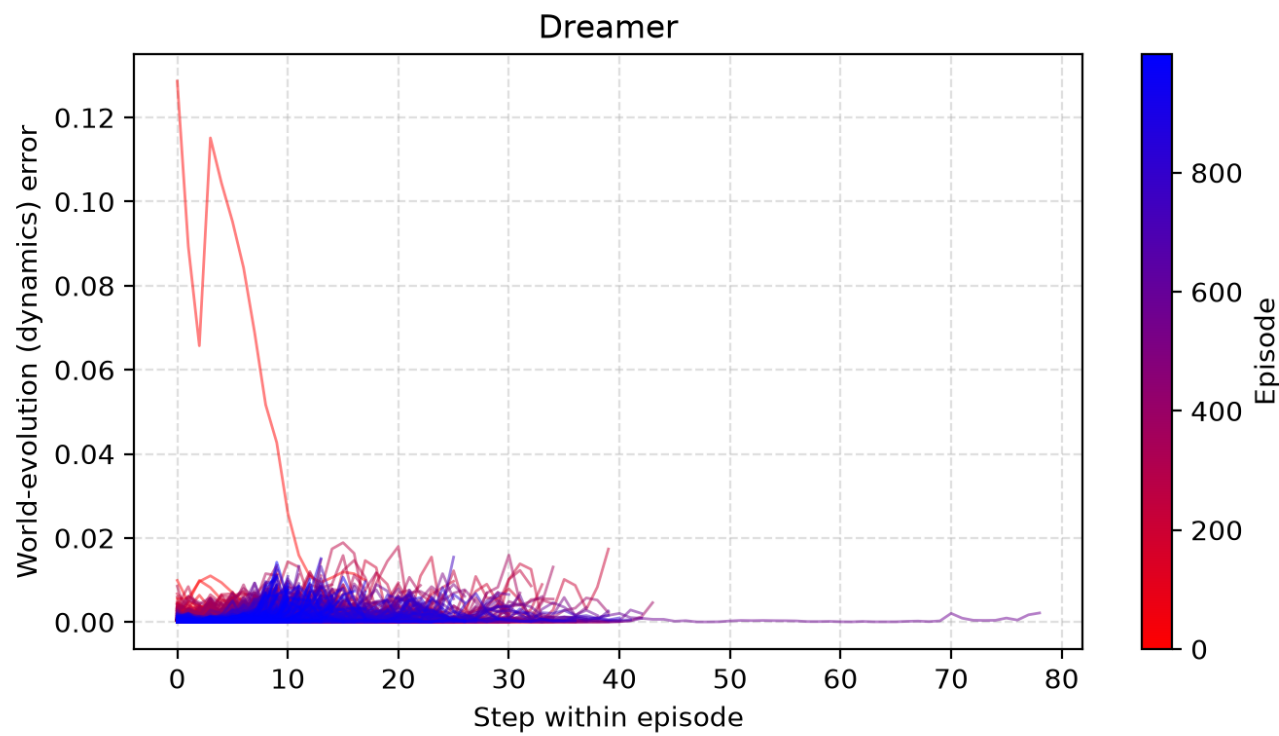

6. Perception

Each line is one episode's error over its steps. Color moves from red (earliest episodes) to blue (latest episodes) to reveal whether error is shrinking across training.

7. Dreamer

Each line is one episode's error over its steps. Color moves from red (earliest episodes) to blue (latest episodes) to reveal whether error is shrinking across training.

8. Replicated Behavior (Evaluation Rollout)
